

# 0 601 9K5 080 – GRG 18V-16 C

Material number	0 601 9K5 080
EAN	4059952570556
Cardboard box	✓

## Technical data

### Description

Long version part 2 (BE)

For flexibility and speed on OEM production, such as HVAC or automotive, as well as on construction and installation jobs, including façade work and roofing, this powerful rivet gun delivers top results. It pulls 3mm to 6.4mm diameter rivets in a variety of material combinations.

Long version part 1 (BE)

The powerful, cordless GRG 18V-16 C Professional rivet gun offers unrestricted mobility with none of the cables and extra equipment that come with a pneumatic tool. With a simpler set-up and less maintenance, it is also more cost-effective. As strong as a pneumatic tool, this rivet gun easily pulls 3mm to 6.4mm diameter stainless steel rivets in heavy-duty applications – and just one battery charge is required to fasten over 1,000 rivets. Workers can opt for auto or manual function according to their personal preference. And for less downtime, connectivity with the Bosch App ensures that tool maintenance and production are kept on track.

Weight incl. battery

0 kg

### Technical data

Tool dimensions (length)	290 mm
Tool dimensions (height)	243 mm
Tool dimensions (width)	67 mm
Weight excl. battery	1.6 kg
Pull force, max.	16000 N

## Sales information

---

### User benefit

- Cordless convenience ensures greater on-site mobility and lower set-up cost
- As powerful and versatile as a pneumatic tool for 3 to 6.4 mm diameter rivets
- Long battery runtime for pulling 1,000 rivets on a single charge
- AUTO and MANUAL rivet function for personal preference during application
- Connectivity enables preventative maintenance and less downtime

### Positioning

- Versatile riveting with no limits

### User benefit

- Setting blind rivets from 3.0 mm to 6.4 mm with one tool
- Choice between two riveting modes: AUTO mode or MANUAL mode
- Built-in Bluetooth connectivity for easy customisation and tracking of maintenance schedule via the Bosch Toolbox App

### Positioning

- Versatile: one rivet gun for a wide range of rivets and with two riveting modes
